

JOB VACANCY

PROFESSOR IN THE FIELD OF FOREST PROTECTION

The **Department of Forestry and Renewable Forest Resources** at the Biotechnical Faculty, University of Ljubljana, is announcing a **job vacancy for a University Professor** (titles: Assistant Professor, Associate Professor, or Full Professor) in the **field of Forest Protection**; Job Code: D019006 (M/F).

Teaching, research, and development work on the vacant position will focus on the areas of forest protection, forest health, forest phytopathology and entomology, and conservation of forest biodiversity

Required Education and Knowledge:

Doctorate of Science (3rd Bologna level, or previous) in a **relevant field** (forestry, biology, agronomy, or related natural sciences) and meets **other requirements for obtaining the appropriate habilitation** at the Biotechnical Faculty (see below).

Priority will be given to candidates who: (i) demonstrate experience and knowledge in the broader field of forestry, forest protection, and forest entomology and phytopathology, (ii) show expertise in the forest protection system in Slovenia (or other comparable countries) through research, publications, and activities, and (iii) have teaching experience with university students.

Monthly Gross Salary:

Assistant Professor pay grade 35-45 (depending on advancement): €3,426.00 - €4,604.00 (and reimbursement of transportation and other costs, and potentially additional payment for increased workload and awards)

Associate Professor pay grade 39-49 (depending on advancement): €3,855.00 – €5,181.00 (and reimbursement of transportation and other costs, and potentially additional payment for increased workload and awards)

Full Professor pay grade 44-54: (depending on advancements: €4,470.00 – €6,007.00 (and reimbursement of transportation and other costs, and potentially additional payment for increased workload and awards)

Application Deadline: 6th May 2025

Start Date of Vacant Job: Expected start date is 1st September 2025

About the Employer:

Department of Forestry and Renewable Forest Resources
Biotechnical Faculty
University of Ljubljana
